A call for job printing compels us, much to our dislike, to present our readers, with a half sheet this week. We shall probably be under the necessity of doing the same thing next week. Under these circumstances we beg the indulgence of our readers.

## CONGRESSIONAL TICKET.

The Bond paying Democrats have now a full Congressional ticket organized. The gentlemen who compose it are V. E. HOWARD, of Hinds; JOSEPH DUNBAR, of Jefferson; W. G. KENDALL, of Yaz. lobusha; and JOHN GILMER, of Lowndes. We have no acquaintance with any of the candidates, save Mr. Kendall, who visited this portion of the State a few weeks since. But we are assured by those who know them, that the selections are good and the ticket worthy of the support of the people. Though we differ in political sentiment with those who compose it, we nevertheless cordially wish them success.

## GOVERNOR TUCKER.

Old "Palladia" is eliciting some complaint from his friends by his course respecting the nomination for Congress tendered him by the July Convention. He neither says that he will nor will not have it, but holds on to the gubernatorial robes. Perhaps his "attention" has not been specially "called" to the fact that he was nominated? The District Chancery Court bill should teach his friends the necessity of special attention to that particular. Or possibly he is waiting to see the result of the election before he accepts or declares the proffered honor. The signs of the times indicate that to be the safest policy.

## NOT SO.

A paragraph has been going the rounds of the newspapers, that the Rev. E. S. Ely, a prominent Presbyterian Minister of Philadelphia, had turned Universalist and preached a discourse in favor of the doctrine of that sect. We had the pleasure of a personal acquaintance with Dr. Ely during his residence in Missouri, and thought the story all a humbug when we saw it. So it turned out to be. The rumor of a change in his religious sentiments, originated from his having preached in a Universalist Church at Reading, Pa., upon the invitation of the Pastor, Mr. Ashton. It was not a "crow" then, but merely something "as black as a crow."

REVOLUTIONARY PATRIOTS.—We notice recent announcements of the deaths of three Revolutionary patriots. At Boston, Mr. James Newell, who took part in the scenes of Lexington, Concord, and Yorktown; at Amherst, Mass., Gen. Ebenezer Mattoon, distinguished as an officer in the Revolution; and near Raleigh, Shelby County, Tenn., Mr. William Hays, a soldier in that memorable struggle. Peace to their remains.

DESTRUCTIVE FIRE.—A destructive fire occurred at Kingston, Jamaica, on the 26th ultimo. Two hundred buildings were destroyed, at an estimated loss of three millions of dollars.

MAINE:—the election in this State came off on Monday, the 11th ultimo. Returns have been received from about half the State. It appears to be pretty certain that R. P. Dunbar, in the Cumberland District, Charles Andrews, in the Lincoln and Oxford District, (Democrats) and Luther Severance (W) in the Kennebec and Franklin District, are elected. Penobscot and Waldo districts have probably elected democrats also. In the York District, as well as the Hancock and Washington, it is thought there is no choice. The Legislature will be democratic. A choice of Governor by the people is thought to be uncertain.

VERMONT ELECTION.—Returns from 178 towns exhibit the following vote for Governor: Mattocks (W.) 21007; Kellogg (D) 18219; scattering 2571; Mattocks lacks 23 votes of having a majority over all, and 60 votes remain to be heard from. The N. Y. Tribune thinks the Whigs will have a larger majority in both branches of the Legislature than they had last year, and that the Congressional delegation will stand 3 Whigs to 1 democrat. It is doubtful whether there will be a choice of a Governor by the people. In the event there is not, the selection will devolve on the Legislature.

THE YELLOW FEVER CASES AT NEW YORK.—The Health Officer of New York, Dr. Van Hohenburg, recently allowed the schooner Vanda to discharge her cargo, go at Kingston, though several cases of yellow fever were on board. A letter appears in the New York papers, from a Mr. M. Romeyn, stating that disease and death have followed in her track. A highly malignant disease, called by some bilious and by others yellow fever, is prevailing in the immediate neighborhood where she discharged her cargo. One died on Thursday night and another on Friday, and several others are down with the same species of disease, all having sickness since her arrival there, and some within a few days—she having left the dock on Friday or Saturday last.

The last Independence Exposition says—ORIN PORTER ROCKWELL, the Mormon confined in our county jail, some time since, for the attempted assassination of Ex-Governor Boggs, was indicated by our last grand

jury, for escaping from the county jail some weeks since, and went to Clay county for trial. Owing, however, to some informality in the proceedings, he was remanded to this county again for trial.

There was not sufficient proof adduced against him, to predicate an indictment for shooting Ex-Gov. Boggs, and the grand jury therefore did not indict him of that offence.

## MUSIC IN THE CHILDREN.

Parents in cities are beginning to appreciate the salutary influence of the "harmony of sounds," upon the minds of children. It softens temper, sweetens the disposition, and turns the heart in unison with all the better feelings of their nature. It creates domestic cheerfulness in the family circle, produces a concord of feeling in the village school, and needs but to be universally practiced to fill the world with harmony. It should be introduced into every common school in the land. Its influence upon the rising generation would do more to elevate the standard of our national morality, than all the pedagogical reproofs ever invented, from birchen doses down to the kindest censure. There are three millions of youth in our country who receive their entire education in the common school. What a volume of sweet sounds would this nation of songsters make! What a world of jarring discords would their peace-making melody extirpate! Let the singing master and the school master go abroad together. Let the musical talent in children be cultivated at the same time with all other talents which God has given them.—Sat. Con.

THE MORMONS AND ANTI MORMONS.—On Wednesday last a meeting of Delegates from Hancock and the surrounding counties was held at Carthage. They had been appointed at previous meetings of the People opposed to the Mormons. The official proceedings have not yet reached us, but we learn from the Burlington Hawk Eye of Saturday last, that the resolutions adopted, were of the strongest kind. They declared, if Gov. Ford would not surrender "Joe Smith" on the requisition of the Governor of Missouri—which he has refused to do from political conditions—that they would call in aid from other counties and other States, to assist them in delivering him up. As rumors were prevalent that a number of the citizens had had their lives threatened by the Mormons, the meeting resolved to avenge any blood that might be shed. They agreed not to obey the mandates of the Mormon officers of the county, who have been put in power by the Mormons, the whole country treasury being now at their disposal. There is considerable excitement—the crisis seems to be rapidly approaching—and we greatly fear the consequences.—As may be remedied, if the Mormons, as a religious body, will but eschew politics and amalgamate with our citizens—but we fear it is too late to do even that.—St. Louis New Era.

Gov. Doty, of Wisconsin Territory, has issued a proclamation recommending to the people of said Territory to vote at the election on the fourth Monday of this month, for or against the formation of a permanent Government for the State of Wisconsin. The Governor expresses the opinion that there are more than sixty thousand inhabitants in the Territory.—Lon. Journal.

Duelling stock in South Carolina, seems to be falling. A correspondent of the Charleston Observer, living in Warrenton, Abbeville District, gave, a short time since, an account of a barbecue held in honor of a military officer in that District, who had the moral courage to refuse a challenge, and to have the assailing parties bound over to keep the peace. The whole proceedings have been published, and they clearly show an amazing depreciation in the public estimation of that honor which was once attached to this mode of settling private quarrels. It is now regarded as disreputable either to give, or receive a challenge. Duelling stock is, therefore, not only below par, but gentlemen who have had any connection with it, either as principals or as seconds, are rather anxious to have that part of their private history canceled and forgotten.—Tropic.
